

EAMTC welcomes our new member **Global Jet Services, Inc.**

Global Jet Services, Inc. is a leading on-location maintenance training provider for airframe and avionics instruction, as well as professional development and safety for the business aviation industry.

Using a practical, hands-on approach, we cover operations, servicing, inspection, and troubleshooting of all major systems for business-class jet and turboprop aircraft.

Our team is a highly-skilled and experienced group of individually talented and collectively resourceful aviation maintenance professionals –educating your staff to promote aviation personnel’s success, positive perception, and future enrichment.

We are actively involved in raising standards and respect toward all personnel in the aviation industry, while offering excellent value with a highly cost-effective, comprehensive training solution.

Rich Bean, Vice President

J.D. McHenry, President & CEO
